Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, 6-9, 12-15, 18, and 19 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Gardner et al (5,806,225).

See especially column 7, lines 6-40 and Figure 6. Note element 120 corresponds to the claimed housing, element 160 to the pivot arm frame, element 172 to the pivot arm pivot point, element 134 to the sear, element 170 to the sear pivot point, and element 154 to the spring mechanism.

3. Applicant's arguments filed 12-22-05 have been fully considered but they are not persuasive. Applicant argues that the reference does not disclose the claimed arcuate paths for the sear and the pivot arm frame. The Examiner believes that the claimed path is the inherent movement for the disclosed structure of the pivot arm frame element 160 and the sear element 134. These elements are constrained by, and pivot about, single pivot points, thus it is inherent that they follow an arcuate path as they move forward or rearward. The cited language in column 3, lines 17-19 does not contradict this assertion, it just does not fully describe the movement. The Examiner does not fully understand the argument relative to the angled surfaces of the sear (i.e. that such surfaces do not exist) since it appears clear that the sear comprises adjacent surfaces that have different angles, as claimed. Also, without further limitation to distinguish the claimed "stops", the surfaces of the firearm which inherently limit the pivoting movement of the sear reads over the claim language.

4. Claims 4, 5, 10, 11, 16, 17, and 20 are allowed.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to J. Woodrow Eldred whose telephone number is 571-272-6901. The examiner can normally be reached on Monday to Thursday, from 8:00 a.m. to 5:30 p.m..
